Nathanaël Kubski
Web & Blockchain Developer

Being part of the Web3 ecosystem for 3 years, I started to learn Web Development on my own in 2022 to consolidate the basics I got from my academic studies, in order to eventually work as a Blockchain Developer. I recently took a Blockchain development course in a renowned school in the field, to finally achieve this goal.

Expertise

- HTML & CSS
- JavaScript & TypeScript
- React & NextJS
- Python
- Solidity
- Hardhat, Truffle, Foundry
- Databases (MongoDB)
- Wagmi, Web3, Ethers
- Git/GitHub
- NFTs
- Decentralized Finance

Skills

- Problem solving
- Teamwork
- Autonomy
- Algorithmic skills
- Adaptability
- Time management
- Communication skills

Language

French

English

Spanish (basic)

Programming projects

- **Click tester** - CSS, React, MongoDB, Vercel
- **"Almost countries" game** - CSS, React, MongoDB, Vercel
- **Voting app** (collaboration) - React, Solidity, Wagmi, HardHat, Vercel, Sepolia Blockchain
- **BlockNews social network** - React, Solidity, Wagmi, HardHat, Vercel, Sepolia Blockchain, NFTs

Education

09/2023 - 12/2023

Alyra, l'école blockchain

Training course "Blockchain development : design, secure, deploy"

Blockchain development course focused mainly on the Ethereum Blockchain and the production of Decentralized Applications using Solidity, Truffle, Hardhat, Foundry, Wagmi, Web3, Ethers, Viem... with time dedicated to topics like security, optimization, unit tests, NFTs or Decentralized Finance.
Succeeded with distinction from the school and a mark of 18.5 out of 20, as well as French certification RS5000 : "Exploiting Blockchain in application development"

09/2020 - 07/2023

Université Clermont Auvergne, Clermont-Ferrand, France

Bachelors of Science, Technology, Health

Mention Mathematics and Computer Science Applied to the Human and Social Sciences
Obtained with honors

09/2017 - 07/2020

Louise Michel High School, Narbonne, France

High School Diploma in Science - engineering sciences option

Obtained with honors

Relevant Work Experience

07/2022 - 09/2023

Freelance

Web Developer

Realization of showcase websites for multiple clients, mainly using HTML, CSS and JavaScript (React) as a basis. It was a great opportunity to practice during my learning of web developement and it taught me how to develop while responding to clients' specifications.
